

# VOCATIONAL PROGRAMS

---

The School of Continuing Education offers courses and certificates in vocational areas including health careers, electronics, business, welding, and others. Some of these certificates, such as Certified Nursing Assistant (CNA) and Electronics Systems Technology (EST) are short-term by design to provide you with the skills and knowledge necessary to work in a particular field.

Additionally, many credit vocational classes offer a limited number of seats available to Continuing Education students for noncredit. Students may enroll in these classes in accordance with procedures outlined in the School of Continuing Education class schedule. Students will not receive college credit.
