- Accounting Accounting /gallery/acctg\_widev1-lg.png The Accounting Degree and certificates provide basic accounting skills combined with in-depth training in a variety of accounting concepts, preparing the student for entry-level positions and/or professional advancement in a wide selection of accounting jobs. These jobs include general accounting, cost accounting, payroll, inventory management, asset management, accounts receivable, accounts payable, budgets and forecast, financial analysis, etc.
- Accounting (Noncredit) Accounting (Noncredit)/gallery/Accounting&#37;20VOC1-lg.png The Accounting certificates provide basic accounting skills combined with in-depth training in a variety of accounting concepts, preparing the student for entry-level positions and/or professional advancement in a wide selection of accounting jobs.
- Administration of Justice Administration of Justice /gallery/pubSafety\_wideV3-lg.png The Administration of Justice program is designed to familiarize you with the functions and relationships of the police, prosecution, courts, probation and correctional systems of the United States.
- Administrative Assistant Administrative Assistant/gallery/Administrative&#37;20Assistant1-lg.png The Administrative Assistant program is intended to prepare students for employment following graduation as administrative assistants, executive assistants, office managers, or other clerical and support staff. Training in a variety of computer and clerical skills is emphasized. Students desiring a bachelor's degree (transfer program) should consult with a counselor or advisor to discuss transferability of courses.
- Adult and Continuing Education Adult and Continuing Education Programs Overview/gallery/Adult&#37;20Basic&#37;20Ed-lg.png Adult education courses are designed to support students towards a career or college pathway, as well as to provide developmental, educational, and lifelong learning opportunities. Programs currently provided by Mt. SAC noncredit include: Basic Skills (including tutoring), English as a Second Language (ESL and VESL), Citizenship, Education for Older Adults, Adults with Disabilities, Secondary Education, and Short-term Vocational.
- Adults with Disabilities Adults with Disabilities/gallery/Adults&#37;20with&#37;20Disabilities2-lg.png The School of Continuing Education's (SCE) \*IMPACT Program provides education and specialized services for adults with intellectual disabilities (ID) and other developmental disabilities (DD). A comprehensive curriculum is under development to prepare students for employment, living independently, participating in college life, and becoming more independent in the community. \* (Independent living skills, Mobility training, Physical health and well-being, Advocacy for self, College career and job readiness skills and Technology training)
- Aeronautics Aeronautics/gallery/aero\_widev1-lg.png Established in the 1940s, the Mt. SAC Aeronautics program is the largest two-year aviation program in California and is nationally recognized as one of the best. If you want to become a commercial or helicopter pilot, military aviator or remote pilot operator, air traffic controller or airport manager, our degree program helps students develop top-notch skills needed for successful careers in aeronautics.
- Agri-Technology, AS Agri-Technology, AS/gallery/AgriTech-lg.png The Mt. SAC agricultural sciences program consists of coursework, laboratory work, and practical, hands-on experience in animal science, horticulture, and veterinary technician instruction. Our outstanding on-campus facilities and industry-experienced faculty give students a practical, real-world experience in a classroom setting.
- Air Conditioning & Refrigeration Air Conditioning & Refrigeration/gallery/Air&#37;20Conditioning&#37;20and&#37;20Welding-lg.jpg The Mt. SAC Air Conditioning and Refrigeration Technology program prepares students for a high paying career in air conditioning, heating and refrigeration through a two-year associate of science degree or a certificate that leads to occupations in design, manufacturing, operations, sales, distribution, installation, maintenance and repair.
- Aircraft Maintenance Technology Aircraft Maintenance Technology/gallery/Airframe&#37;20Maintenance-lg.png The Aircraft Maintenance Technology program is one of the oldest technology programs currently in operation at Mt. San Antonio College. Mt. SAC is certified by the Federal Aviation Administration to train new technicians to enter the industry as a general aviation technician, a corporate aircraft technician, or as a commercial aircraft technician.
- Alcohol & Drug Counseling Alcohol & Drug Counseling /gallery/Alcohol&#37;20and&#37;20Drug-lg.png In this program the student integrates theory and practical experience in developing skills necessary to work with the alcohol and drug abuse population as well as families and employers of chemically-dependent persons. The curriculum is designed to meet the credentialing requirements of the California Association of Alcohol/Drug Educators.
- Android Programming Android Programming/gallery/android-lg.png This curriculum is designed for returning CIS professionals with several years experience or current students who have completed several CIS courses. The Android Programming certificate will give students skills that are necessary to obtain jobs in the area of mobile programming, that is used more and more in industry. Students will learn different software packages for developing Android applications as well as general programming skills.
- Animal Sciences Animal Sciences/gallery/Animal&#37;20Science1-lg.png Mt. San Antonio College has one of the largest animal science programs in California and the most comprehensive in Southern California. The College serves Los Angeles, San Bernardino, Orange and Riverside counties. Located in Los Angeles County, which is one of the largest dollar volume counties, utilizing animal products in the world.
- Animation Animation/gallery/animation-lg.png The A.S. Degree in Animation and specialized certificates are designed to prepare students for careers in the entertainment arts industries of animation and gaming. The program offers a balanced catalog of classes to prepare students with the traditional and digital art skills the industry demands. Emphasis is placed on solid drawing, storytelling, design, 3D modeling, and animation skills, utilizing digital technology to meet employment opportunities for TV, film, web, game design, and digital effects.
- Animation, AS Animation, AS/gallery/animationV3-lg.png
- Appliance Repair (Noncredit) Appliance Repair (Noncredit)/gallery/Campus-lg.jpg
- Applied Laboratory Science Technology (ALST), AS/gallery/Applied&#37;20Lab&#37;20Science-lg.png The Applied Laboratory Science program provides theoretical and technical training to prepare students for employment as

entry-level chemical technicians in fields such as chemical quality control, chemical process control, analytical chemistry, water quality, and research and development. The program includes a broad-based overview of workforce options and emphasizes development of analytical skills, instrument proficiency, critical thinking, and troubleshooting of experimental designs and outcomes.

- **Architectural Design** [Architectural Design /gallery/ARCH\\_widev1-lg.png](#)The Architectural Design program prepares students to enter the field of architecture and related areas. The student is provided with an option of direct employment into the field or preparation for transfer to a professional school of architecture. The Design Concentration focuses upon studio-based design projects, drawing, and presentation skills. The student will develop a portfolio of work relevant to their concentration.
- **Architectural Design (Noncredit)** [Architectural Design \(Noncredit\)/gallery/Campus-lg.jpg](#)
- **Architectural Design Concentration - Level 1 (Noncredit)** [Architectural Design Concentration - Level 1 \(Noncredit\)/gallery/Campus-lg.jpg](#)
- **Architectural Technology** [Architectural Technology /gallery/Architectural&#37;20Tech-lg.png](#)The Architectural Technology program prepares students to enter the field of architecture and related areas. The student is provided with an option of direct employment into the field or preparation for transfer to a professional school of architecture. The Technology Concentration focuses upon building and construction technology, documentation, codes, and computer applications. Current technology and computer (CAD) skills are integrated into the program.
- **Architecture Foundational Skills (Noncredit)** [Architecture Foundational Skills \(Noncredit\)/gallery/Campus-lg.jpg](#)
- **Art History, AA-T** [Art History, AA-T/gallery/Art&#37;20History-lg.jpg](#)The Art History program involves the study of visual objects as works of art and as artifacts of the historical and cultural contexts in which they were created. We provide students with a solid foundation in both European and non-European art and visual culture from the periods of pre-history through modern and train students to critically analyze visual objects from a variety of perspectives.
- **Athletic Trainer Aide I** [Athletic Trainer Aide I/gallery/Athletic&#37;20Trainer&#37;20Aide&#37;20I-lg.png](#)The Athletic Trainer Aide I Certificate provides minimal experience necessary to assist High School Athletic Trainers and Athletic Health Care Providers in the community. Students will learn techniques and procedures for prevention and treatment of sports-related injuries, including rehabilitation modalities as well as the policies and procedures of an athletic training room. Students who successfully pass all requirements will earn the appropriate American Red Cross First Aid and/or CPR Certificate.
- **Audio Arts** [Audio Arts/gallery/Radio-lg.png](#)The Audio Arts degree provides students with conceptual, technical, and creative skills necessary for employment in audio-related positions in a variety of industries. These industries include, but are not limited to, music, film, TV, radio, animation, gaming, theater, event management, theme parks, commercial installations, and integrated systems. The program provides training in audio production, engineering, and business for recordings, live events, and multimedia.
- **Automotive Welding, Cutting, & Modification (Noncredit)** [Automotive Welding, Cutting, & Modification \(Noncredit\)/gallery/Auto&#37;20Weld&#37;20VOC-lg.png](#)
- **Aviation Science** [Aviation Science/gallery/Aviation&#37;20Science-lg.png](#)This curriculum meets the requirements of the Federal Aviation Administration Air Traffic Collegiate Training Initiative (AT-CTI). Under an educational partnership agreement with the FAA, this CTI program prepares students for broad-based aviation careers. Students completing this CTI program may be recommended by the college for hiring by the FAA as air traffic controllers.
- **Big Data Analytics** [Big Data Analytics/gallery/computing1-lg.png](#)The curriculum is designed for returning CIS, business, marketing, and data analytics professionals with industry experience or students who have completed CIS courses. A CIS certificate in Big Data Analytics will provide students with the knowledge and skills to obtain jobs in the areas of data science, data analysis, Big Data, and data mining. Students will learn how to make business decisions based upon the analysis of large amounts of data. Students will learn about processing, integrating, modeling, mining, and analytics related to Big Data. Students will use frameworks, tools, services, and programming languages to analyze data.
- **Building Automation** [Building Automation /gallery/buildAuto\\_widev1-lg.png](#)The Building Automation program is designed to prepare students for a career in the fields of Building Automation, Energy Management, and Green Building Technologies. Building automation is a programmed, computerized network of electronic devices that monitor and control the energy consumption of buildings to create an intelligent building and reduce energy and maintenance costs.
- **Business** [Business /gallery/business-lg.jpg](#)Do you want to run your own nonprofit organization or company, whether it's a retail store, small business or restaurant? Have you dreamed of working abroad and seeing the world? Are you drawn to a career in fashion merchandising or culinary arts? Do you get excited by budgets and number crunching? Whatever your inspiration is, Mt. SAC offers a broad range of business programs, from accounting and hospitality to human resources, paralegal studies and real estate, among many others.
- **Business Management** [Business Management/gallery/Business&#37;20Management-lg.png](#)The Management program at Mt. San Antonio College focuses on practical applications of management, business communications and marketing theory. Students are exposed to the latest trends in these disciplines and learning goals are reinforced with experiential learning activities. Our program provides various opportunities where students can become involved and add value to their educational experience, helping students to find the best career choice for them.
- **Business Management (Noncredit)** [Business Management \(Noncredit\)/gallery/people-business-914982590-lg.jpg](#)The Management program at Mt. San Antonio College focuses on practical applications of management, business communications and marketing theory. Students are exposed to the latest trends in these disciplines and learning goals are reinforced with experiential learning activities. Our program provides various opportunities where students can become involved and add value to their educational experience, helping students to find the best career choice for them.
- **Business: International** [Business: International/gallery/Int&#37;20Business-lg.png](#)The International Business program is intended to prepare the student to work in the unique and dynamic environment of international business. Students acquire both theoretical knowledge and practical skills related to managing and marketing within the global arena. Students will gain a practical, hands-on perspective of how to compete in a global system of conflicting laws, regulations, and requirements.
- **CAD Technician** [CAD Technician /gallery/cad\\_technician\\_program-lg.jpg](#)Provides students with the most current two-dimensional

- (2D) and three-dimensional (3D) computer aided design (CAD) skills required in the manufacturing, design, and engineering disciplines.
- CNC Technician CNC Technician /gallery/cnc\_technician\_program-lg.jpg Theory and application of computer numerical control (CNC) machining practices using mills and lathes typical in a wide range of industries. Designed to adapt and upgrade machining skills to industry standards and encourage the development of supplemental skills in computer aided design (CAD) and computer aided manufacture (CAM), metrology and problem-solving to better address the current needs and expectations of industry.
  - Certified Nursing Assistant ...Certified Nursing Assistant (CNA) (Noncredit)/gallery/Campus-lg.jpg
  - Child Development Child Development /gallery/Child&#37;20Dev3-lg.png The Child Development program provides a theoretical framework and practical experience developing skills necessary to work directly in preschool classrooms. Graduates can be employed at the teacher or master teacher level. The program develops students' skills and abilities in observation and assessing, planning and executing activities, and classroom management based on developmentally appropriate practices.
  - Children's Program Children's Program/gallery/Childrens&#37;20program1-lg.png Do you find it rewarding to work with infants, toddlers or children K-12 to enhance their learning development? Have you always wanted to help children with special needs? If so, Mt. SAC offers excellent degree and certificate programs in the area of education & child development.
  - Coaching Coaching/gallery/Coaching-lg.png This coaching certificate program is intended to prepare students for employment as high school (walk-on) sport coaches, but is appropriate for coaches at various levels. Students will develop their coaching philosophy and learn the basic fundamentals of training, fitness, skill development, rules, injury prevention and offensive and defensive strategy for their chosen sport.
  - Commercial Flight, AS Commercial Flight, AS/gallery/aero\_widev1-lg.png
  - Communication Communication/gallery/Communication-lg.png The Mt. San Antonio College department of Communication is dedicated to helping students develop and improve their understanding of human communication through theoretical and practical exploration of this diverse field. Communication courses can be used to satisfy the vast majority of general education and transfer requirements. Students can also complete their Mt. SAC Associates Degree with an emphasis in Communication.
  - Computed Tomography Computed Tomography/gallery/Computed&#37;20Tomography-lg.png This program provides a complete educational experience for registered Radiologic Technologists (RTs) who wish to expand their skills into the study in the theory and practice of CT. Students will have the opportunity to learn and develop competence in patient care, communication skills, critical thinking, and technical skills that will prepare the student to become a competent entry level CT Technologist.
  - Computer - Database Managem... Computer - Database Management Systems/gallery/Computer&#37;20Database&#37;20Serv-lg.png Database Management Systems is designed to prepare students for careers in database management systems. The program offers a balanced catalog of classes that prepares students to work with both small and enterprise-level computer databases required by industry. Emphasis is placed on current techniques used in relational database management systems, including creating and maintaining table data, setting appropriate relationships between tables, querying needed information, creating additional objects needed for the dissemination of information from the database and setting properties to help ensure the security of data. In addition, VBA (Visual Basic for Applications) programming is covered.
  - Computer Network Administrat... Computer Network Administration and Security Management/gallery/Computer&#37;20Netwrok&#37;20Admin-lg.png Computer Network Administration and Security Management prepares individuals for employment in the computer/information technology field in such areas as network administrator and security management administrator. The curriculum is intended to help students develop skills to design, administer and manage the heterogeneous corporate network with security emphasis. The courses examine and illustrate network security with various industry-leading network operating systems. Individual courses will assist students in preparing for related industry certification exams.
  - Computer Programming Computer Programming/gallery/Computer&#37;20Prog-lg.png Computer Programming is designed to prepare students for a career in computer programming. The program offers a balanced set of classes that provides students with client, server and database programming skills required by the industry. Emphasis is placed on object-oriented programming applications, configuring servers, creating and navigating databases, and reusable software components. Career opportunities available after the completion of this program include programming for systems, mobile devices, device drivers and software engineering.
  - Computer Software Computer Software/gallery/Microcomputer-lg.png
  - Computer Systems Technology ... Computer Systems Technology (Noncredit)/gallery/Computer&#37;20Systems&#37;20VOC-lg.png The Computer Systems Technology curriculum encompasses advanced coursework in computer systems circuitry, including microcontrollers and microprocessors.
  - Computer and Networking Tech... Computer and Networking Technology/gallery/Computer&#37;20and&#37;20Networking&#37;20Tech-lg.jpg The Computer and Networking Technology program prepares students to become computer and networking service technicians. The program provides foundations in basic electricity and electronics, operating systems, computer service and troubleshooting, and customer relations, as well as more advanced training in networks, servers, and security. Students learn to install, configure, maintain, troubleshoot, and repair computers and networks.
  - Computer and Networking Tech... Computer and Networking Technology (Noncredit)/gallery/server-network-male-155439773-lg.jpg This certificate is intended to prepare students to enter the computer and networking fields as service technicians with foundations in basic electricity and electronics, operating systems, computer service and troubleshooting, and preparation for the A+ certification examination.
  - Consumer Relations Consumer Relations/gallery/Consumer-lg.png This program provides semi-professional training for those who seek immediate Consumer Relations employment in non-profit agencies, government, education, or business such as utilities, telecommunications, and finance. Positions include, but are not limited to: consumer affairs representatives, client related government jobs, and community advocates.
  - Culinary Arts Culinary Arts/gallery/Culinary&#37;20Arts-lg.png The Culinary Arts program prepares students for entry level career opportunities in restaurants, catering, hotels, theme parks and other food service businesses. Students gain practical training in the use

- of commercial equipment and acquire the skills necessary to be successful in the field of culinary arts.
- Culinary Arts Management, ASCulinary Arts Management, AS/gallery/cuilnaryarts4&#37;20-lg.jpgThe program prepares students for career opportunities in restaurants, catering, hotels, theme parks and other food service businesses. Students gain practical training in the use of commercial equipment and acquire the skills necessary to be successful in the field of culinary arts such as: knife skills, food production, presentation, menu development, portion control, cost control, menu planning and nutrition. Students who successfully complete the requirements for this degree will also earn the Food Protection Manager Certification.
  - Dance TeacherDance Teacher/gallery/Dance-lg.jpgThe Dance Teacher Certificate is intended to prepare students for careers as dance instructors in private dance studios, recreation centers, and K-12 dance programs.
  - Dance, AA Dance, AA /gallery/Dance&#37;20Skills1-lg.pngAn emphasis in Dance provides the student with an understanding of the practices and theories of dance history, pedagogy and choreography. In addition to the foundational courses, students select courses from dance technique, performance and anatomy and Pilates categories.
  - Domestic Violence Certificat...Domestic Violence Certification/gallery/Ment&#37;20Health2-lg.pngThe Domestic Violence certificate is an overview of the history, law, and psychology of domestic violence and its ramifications. The program explores the cultural and social aspects of domestic violence, as well as the relationship between domestic violence and substance abuse.
  - Drone Camera Operator, ASDrone Camera Operator, AS/gallery/drone&#37;20camera&#37;20operator-lg.jpgThis degree is designed for students who want to specialize as drone camera imaging operators for multiple career applications in commercial photography, cinematography, construction, surveying, inspection, and public safety.
  - Education for Older AdultsEducation for Older Adults/gallery/Education&#37;20for&#37;20Older&#37;20Adults-lg.pngThe Education for Older Adults program provides opportunities for students to develop and share a new vision of life's second half, to challenge the mind, to acquire new skills, to stay mentally and physically fit, and to share knowledge and experience with peers and younger people.
  - Electronic Systems Technolog...Electronic Systems Technology - Cabling and Wiring (Noncredit)/gallery/Campus-lg.jpg
  - ElectronicsElectronics/gallery/Info&#37;20technology-lg.pngDo you want to build computers from the ground up or repair broken computers and networks? Do you like the idea of working with low-voltage wiring and cabling? At Mt. SAC, our hands-on degree and certificate programs in these areas prepare you for various types of high-paying careers in electronics for various industries, including computer and networking companies, home and business security systems, cable providers, home theaters, and others.
  - Electronics (Noncredit)Electronics (Noncredit)/gallery/circuit-board-483147081-lg.jpgDo you want to build computers from the ground up or repair broken computers and networks? Do you like the idea of working with low-voltage wiring and cabling? At Mt. SAC, our hands-on degree and certificate programs in these areas prepare you for various types of high-paying careers in electronics for various industries, including computer and networking companies, home and business security systems, cable providers, home theaters, and others.
  - Electronics CommunicationsElectronics Communications/gallery/Info&#37;20technology-lg.png

  - Emergency Medical ServicesEmergency Medical Services/gallery/Medical&#37;20Service-lg.pngHave you dreamed of an adrenaline-filled career where you're the first on the scene of accidents, medical emergencies and natural disasters? Do you have a desire to help people in life-threatening situations? Mt. SAC offers a quality, accredited program to become either an Emergency Medical Technician (EMT) or a paramedic.
  - Emergency Medical Technician...Emergency Medical Technician (Noncredit)/gallery/Campus-lg.jpg
  - Engineering and Construction...Engineering and Construction Technology/gallery/Architectural&#37;20Tech-lg.pngThis program prepares students to enter the fields of construction; general or civil engineering technology; building inspection; or construction management. A wide range of courses develop knowledge and skills such as general construction principles and processes, construction estimating and scheduling, legal aspects of construction, building codes, materials and specifications, building inspection, reading and preparing construction drawings, CADD (computer aided drawing and design), and BIM (building information modeling), as well as construction management.
  - English as Second LanguageEnglish as Second Language/gallery/20170518\_5D\_MtSAC\_ESL\_0101-sm-lg.jpgThe English as a Second Language program is designed to help students get the language and cultural skills they need to achieve their academic and career goals. Classes are available in ESL, Vocational ESL (VESL), TOEFL Preparation, and Citizenship Preparation.
  - English, AA-TEnglish, AA-T/gallery/English2-lg.pngThe English program introduces students to Literature written in English and gives them the option of studying creative writing. The program provides students with core skills and knowledge needed to pursue a baccalaureate degree in English, including the ability to analyze literature and the ability to write researched analytical papers. Students will be able to write a literary analysis, analyze major themes and concerns in literature, and identify the influence of culture on human expression.
  - Environmental StudiesEnvironmental Studies/gallery/Wildlife&#37;20Sanct-lg.pngThe Environmental Studies program provides students with an integrated and critical understanding of the natural environment and human interactions with it. This program is designed to prepare students to research, analyze, and propose solutions to the myriad environmental challenges facing the world today through a well-rounded curriculum combining classroom, laboratory, and field study instruction.
  - FashionFashion/gallery/FASH&#37;204-lg.jpgThe Fashion Design & Merchandising Program at Mt. San Antonio College offers courses that feature the latest technology related to their respective fields taught by experienced industry professionals. Our hands-on curriculum for Fashion Merchandising and our curriculum for Fashion Design and Technologies are continuously updated to reflect current trends in the apparel industry.
  - Fine ArtsFine Arts/gallery/Fine&#37;20Art-lg.jpgThe Fine Arts lead to many directions for specialization. We expose students to a wide range of creative, critical making and thinking. Students develop visual literacy while learning to actively engage challenges. We ask

students to be open-minded and embrace discoveries that may unlock new, rich contexts, experiences and understanding.

- Fire Certification & Technol...Fire Certification & Technology/gallery/fireTech\_wideV2-lg.pngThe Mt. SAC Fire Technology program is dedicated to the instruction and support of potential fire service professionals. Through its courses and Fire Academy, the program enhances the ability of fire and emergency services (as well as allied professionals) to effectively address fire and related emergencies.
- Fitness Specialist/Personal ...Fitness Specialist/Personal Trainer/gallery/Fitness&#37;20Specialist-lg.pngThe Fitness Specialist/Personal Trainer Certificate prepares students for careers as personal trainers, health/fitness professionals in corporate fitness facilities, wellness centers and public/private health clubs. Technical skills necessary for implementation of a safe, effective and motivational physical fitness program are presented.
- Floral Design (Noncredit)Floral Design (Noncredit)/gallery/Floral&#37;20Design&#37;20VOC-lg.pngThis sequence is offered in the evening only on campus and at off-campus locations and can be completed in two years. Students completing all three courses will have skills and knowledge to seek jobs in floral design beyond entry-level positions, i.e., first-line supervision and/or management and Floral Designers.
- Gallery Design/Operation and...Gallery Design/Operation and Art Profession/gallery/Gallery&#37;20Design-lg.pngThis certificate is designed to provide students with the necessary theoretical and practical knowledge and skills to display an esthetically and conceptually effective art exhibition. Students will acquire the knowledge of various/diverse artistic media and develop a career-oriented artistic perspective.
- Gas, Tungsten Arc, Welding (...Gas, Tungsten Arc, Welding (Noncredit)/gallery/Weld&#37;20VOC-lg.png
- General Office Skills (Noncr...General Office Skills (Noncredit)/gallery/Campus-lg.jpg
- Geography, AA-TGeography, AA-T/gallery/Geography-lg.pngGeography is the study of place and space. Geographers are interested in examining where things are located on the earth, why they are located where they are and how places differ. Geographers are also fundamentally interested in the interactions between people and the spaces they occupy. There are two primary branches of geography: human and physical geography.
- Graphic DesignGraphic Design/gallery/Graphic&#37;20Design1-lg.pngThe Graphic Design programs prepare students for careers in the field of Communication Art. Students are given a balanced blend of creative, design, and technology skills necessary to develop successful graphic design for print, web, and other media channels. These programs offer the expertise necessary for employment opportunities in the field of Graphic Design or transfer to a university.
- Health Careers (Noncredit)Health Careers (Noncredit)/gallery/Health&#37;20Careers-lg.pngThe School of Continuing Education offers courses and certificates in the health careers. Courses are tuition free. However, students are responsible for the purchase of materials.
- High School Equivalency GED High School Equivalency GED /gallery/HSE\_GED-lg.pngThe General Education Development (GED) Test and the HiSET both measure your knowledge and academic skills against those of today's traditional high school graduates. Students who pass the GED or HiSET test will be granted a California High School Equivalency (HSE) Certificate.
- High School ProgramsHigh School Programs/gallery/High&#37;20School&#37;20Programs1-lg.pngAdult students can earn credits toward completion of a high school diploma under the guidance of an instructor and support staff. Coursework is offered in small group instruction, computer aided instruction, and individual study. High School Referral (HSR) is a self-paced, guided-study program designed to allow high school students the opportunity to retake classes to earn a higher grade and make up credits. Students must be currently enrolled in high school and have parent and counselor consent to participate.
- Histologic Technician TrainingHistologic Technician Training/gallery/Histo-lg.pngHistotechnicians prepare thin sections of human, animal and plant tissue for microscopic examination. The Mt. SAC histotechnician training program is intended to prepare students for entry level employment as histotechnicians in clinical, veterinary, forensic, marine biology, and research laboratories. It also serves as a pathway for career advancement in specialized areas in the histotechnology profession.
- HistoryHistory/gallery/history-lg.pngHistorians engage in systematic study of the human past and may draw upon the subject matter and methods of many academic disciplines. History professors at Mt. San Antonio College seek to understand the past in order to discover meaning and relevance for people in the present. We strive to introduce students to the skills of critical writing, thinking, and analysis necessary to comprehend the range of human experiences from a historical perspective. History is a fundamental tool for us to better understand ourselves and our world by making connections between the past and the present.
- Horse Ranch ManagementHorse Ranch Management/gallery/Horse&#37;20Ranch&#37;20Mng-lg.pngHorse Ranch Management offers students a look into the science, breeding, management and training of horses using a hands-on approach. It helps to prepare students for a variety of jobs in the horse industry and is molded around a core of horse science, agriculture, and general education courses.
- Horse Ranch Management (Nonc...Horse Ranch Management (Noncredit)/gallery/Horses-Running-1019461046&#37;20(crop)-lg.JPGHorse Ranch Management offers students a look into the science, breeding, management and training of horses using a hands-on approach. It helps to prepare students for a variety of jobs in the horse industry and is molded around a core of horse science, agriculture, and general education courses.
- HorticultureHorticulture/gallery/Horticulture-lg.pngThe Horticulture program at Mt. SAC offers many degrees and certificate programs designed to prepare students for careers in the broad field of ornamental horticulture, park and sports turf management, integrated pest management, and equipment technology. Students learn basic theory in the classroom and then apply it in hands-on learning outdoors.
- HospitalityHospitality/gallery/Hotel-lg.pngYou've just taken the first step towards exploring an exciting career in the world's largest industry. The hospitality industry generates more than \$3.8 trillion per year, globally, and employs over 120 million people. It is the fastest growing industry in the world and is open to people of various talents and skill levels. In addition, a career in hospitality is one of the most fun careers in the business field.
- Human ProsectionHuman Prosection/gallery/human&#37;20prosection-lg.jpgThe Certificate of Achievement in Human Prosection will be awarded to students for the completion of a two-year series of courses culminating in a year-long experience prosecting human cadavers for use as anatomical specimens in our general anatomy courses.

- Human Resource Management (Noncredit)/gallery/People-Interview-1086574458-Ig.jpg This introductory certificate exposes students to the business world and the role of human resources. Students become familiar with various approaches to business organization and the strategic nature of human resources. This certificate may aid in the student's search for an entry-level job in the business world.
  - Human Resource Management, AS Human Resource Management, AS/gallery/HR&#37;20AS-Ig.png The Human Resource Management degree is intended to prepare students to enter the business world in the dynamic environment of human resources. Students become familiar with various approaches to business organization and the strategic nature of human resource management. Studies in human resource law, compensation systems, training, and development will provide the student a solid foundation from which to build a career in human resource management.
  - Humanities Humanities/gallery/humanities-Ig.png An emphasis in Humanities provides the student with an understanding of the interrelationship between art, religion, history, music, literature and the dramatic arts, and philosophical and political thought. This emphasis also strengthens the understanding of other cultures through the study of a foreign language.
  - In Home Support Services (Noncredit)/gallery/In&#37;20Home&#37;20Support&#37;20VOC-Ig.png This short-term vocational sequence prepares students to become personal care attendants in the home or in a health care facility. This program is specifically for noncredit students who are seeking training in the health field for immediate entry-level employment. Furthermore, this program will also provide foundational health skills for students to enter into more advanced health career programs such as Certified Nursing Assistant (CNA).
  - Industrial Design Engineering Industrial Design Engineering/gallery/IDE\_widev1-Ig.png The Mt. SAC Industrial Design Program is an accelerated four semester program that focuses on product design, CAD, engineering, hands on fabrication and manufacturing. Students in the IDE program learn how to take an idea and make it into a prototype ready for manufacturing.
  - Integrated Pest Management, AS Integrated Pest Management, AS/gallery/Horticulture-Ig.png The Integrated Pest Management Program is part of the Agricultural Science Program and prepares students to design and implement comprehensive integrated pest management programs for private or public entities. It qualifies students to take the Pest Control Advisor (PCA) exam administered by the California Department of Pesticide Regulation.
  - Interior Design Interior Design/gallery/Interior&#37;20Design-Ig.png Interior Design is a rapidly growing profession that requires both creativity and technical knowledge to solve design problems. Mt. SAC will prepare you for careers in residential, restaurant, retail, corporate and business interior design.
  - Interior Design (Noncredit) Interior Design (Noncredit)/gallery/designer-interior-171363704-Ig.jpg Interior Design is a rapidly growing profession that requires both creativity and technical knowledge to solve design problems. Mt. SAC will prepare you for careers in residential, restaurant, retail, corporate and business interior design.
  - International Business (Noncredit) International Business (Noncredit)/gallery/Business&#37;20International&#37;20VOC-Ig.png The International Business program is intended to prepare the student to work in the unique and dynamic environment of international business.
