

ADULTS WITH DISABILITIES

The School of Continuing Education's (SCE) Adults with Disabilities (AWD) Program offers specialized courses designed to enable students with intellectual and/or developmental disabilities (ID/DD) to attend college and achieve their goals. Our classes provide students with the skills they need to transition into more independent living and working environments in the community, and to prepare for other college courses. The Mt. SAC college campus and surrounding community provide a rich environment for instruction and skill development.

For more information on AWD, contact the program office at (909) 274-4192.

Course Prefix	Course Name	Units
ACCS BMS	Basic Math Skills
