

# ACCOUNTING - COMPUTERIZED

---

## Certificate of Completion #24246

The Accounting - Computerized Certificate provides basic accounting skills and knowledge combined with additional training in computer applications common to the accounting industry. This certificate program prepares the student for an entry-level position as an accounting clerk that requires computer skills in areas such as utilization of accounting software, accounts receivable, accounts payable, inventory tracking and reporting, bank reconciliation, expense reporting, and account analysis.

### Program Learning Outcomes

- Students will process collections from customers and update accounts receivable.
- Students will prepare financial statements.
- Students will solve managerial accounting problems with Excel software.
- Students will develop the ability to relate material from each course completed to their current and future professional needs, even if these needs fall into a different discipline.

Review [Student Learning Outcomes \(SLOs\)](#) for this program.
