

CONSTRUCTION MANAGEMENT

The Construction Management program prepares students to enter the field of construction management, construction administration, supervision, or other related construction employment. This comprehensive program will enhance the skills of working professionals and introduce entry level students to the range of construction employment opportunities. The program develops contemporary and emerging skills in general construction principles and processes, sustainability, estimating and scheduling, contract administration, building codes and legal aspects of construction, materials and specifications, reading construction documents, and BIM (building information modeling).
