

DIETARY MANAGER (CERTIFICATE N0964)

Business Division

Certificate N0964

The Dietary Manager certificate is designed to prepare students to work as Dietary Services Supervisors or to sit for the Certified Dietary Manager exam. The courses prepare students for kitchen supervision and management in health care facilities, nursing homes, and other clinical food service venues. The courses include a mix of nutrition, culinary, and hospitality management and include a field service requirement. Completion of this certificate should enable students to enter supervisory roles in clinical food service.
