

TECHNICAL THEATER

Arts Division
Certificate T0446

The Technical Theater Certificate will provide students with classwork and practical experience across a broad base of technical theater disciplines, including set construction, set rigging, lighting, and stage management. There is an emphasis on supporting classroom instruction with both practical application and participation in main stage productions. Students will expand their resumes by virtue of their participation on build and running crews. This certificate may aid in the student's search for an entry-level position as a shop technician or running crew in theaters and theme parks. It may also aid in finding short-term work on load-ins and running crews for theatrical events.

Required Courses

Course Prefix	Course Name	Units
THTR 9	Introduction to Theater Arts	3
